Amazon Profile Page

Author, Fly-fisherman, inventor, and business leader, Gary spent the last decade living abroad in Asia. His most recent work, *Leaving the Bones Behind*, is a suspense novel set in the Northwest in the state of Montana, with threads leading the reader to Seattle, to Long Island, to Sparta, Tennessee, to the Alagnak River in Alaska, to Japan, and Singapore. A work of fiction, the subject matter is sure to strike a chord with many readers—especially baby boomers. It's sort of a Michael Crichton-esque take on a Nicholas Sparks story, *The Notebook*. This thought-provoking novel is about the ravages of Alzheimer's disease, the ethical dilemmas inherent in scientific advances, and the search for a dignified space in-between. Readers will be absorbed in Gary's story from the very first page, and should be prepared to experience a full range of emotions as they work their way toward the astonishing conclusion of *Leaving the Bones Behind*.
